

QUANTUM SWAP AI

**“THE NEXT STEP IN
CROSS-CHAIN
CRYPTOCURRENCY
TRANSACTIONS”**

Mission Statement

Quantum Swap AI's mission is to empower seamless and efficient financial interactions across diverse blockchain networks, fostering an inclusive and accessible decentralized finance ecosystem.

We are dedicated to innovation at the intersection of technology and user experience, ensuring secure, transparent, and frictionless cross-chain transactions for all users, utilizing cutting edge AI technology to monitor on chain data and price movements to ensure user obtain the best value cross-chain swap price.

Our commitment lies in bridging the gaps in the DeFi space, driving liquidity, connectivity, and growth in the global cryptocurrency markets.

Welcome to Quantum Swap AI!

The Next Step in Cross-Chain Cryptocurrency Transactions

Quantum Swap AI will introduce an advanced solution for seamless cross-chain transactions in the DeFi ecosystem. We provide a simple and fast instant cryptocurrency exchange service.

Our aim is to quickly convert your coins and tokens for you with competitive transaction fees.

Our platform will be designed to overcome the challenges of liquidity and interoperability in the diverse blockchain landscape, and will be integrated into multiple cryptocurrency trading platforms.

At the time you submit the trade, our AI algorithms will analyze all our integrated trading platforms to get you the best exchange rate on the market at any given moment and offer it to you.

- ✓ Direct, seamless swapping of assets across divers blockchains.
- ✓ Simplified transactions with lower costs, enhancing user experience.
- ✓ Boosting liquidity and enabling wider market participation.
- ✓ Advanced cryptographic methods for secure transactions.
- ✓ Blockchain interoperability protocols enabling cross-chain communication.
- ✓ Regular updates to align with the latest in blockchain technology.

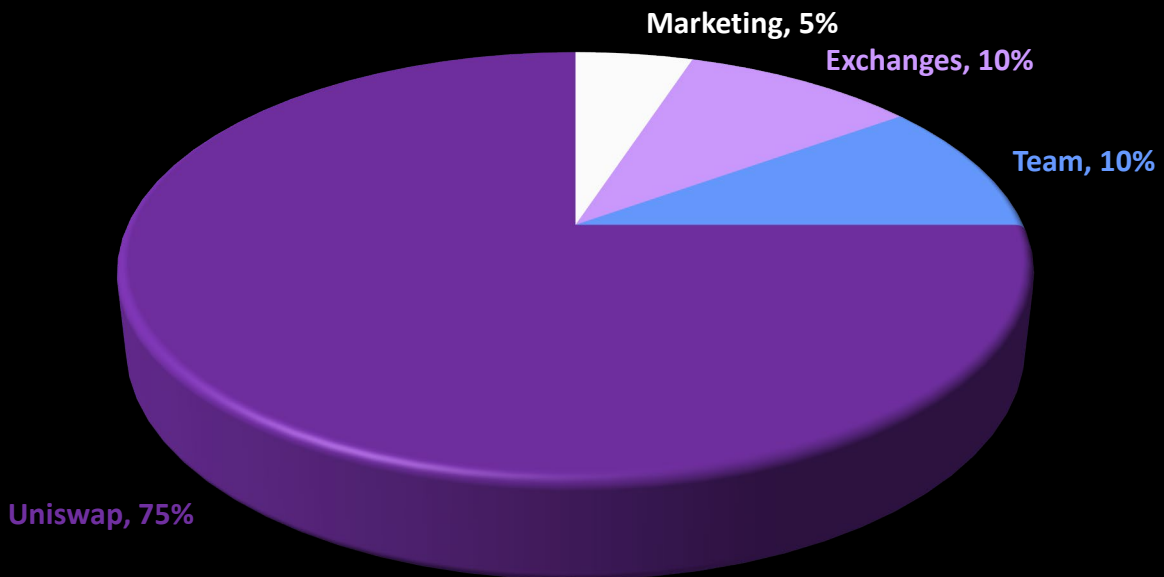

Quantum Swap AI Token: \$QSWAP

10,000,000,000 (10 Billion) total token supply.

Taxes 5% Buy and 5% Sell.

TOKENOMICS

Quantum Swap AI Staking

Token staking will be available shortly after the launch of \$QSWAP

- ✓ Staking rewards are paid in ETH.
- ✓ 50% of fees from the Quantum Swap platform will go towards the staking pool.
- ✓ 1% buy and 1% sell taxes will be sent to the staking pool.

Staking Options

90 Day staking: Earn competitive ETH rewards. Convenient and flexible for investors.

180 Day staking: If you are looking for greater rewards, the 180 day staking is the smart choice, reaping 60% greater rewards than staking for 90 days.

360 Day staking: Long-term investors are rewarded with 120% greater rewards than staking for 90 Days.

Quantum Swap AI Development

With a full in-house team of developers, the creation of Quantum Swap AI is well under way.

We are developing a straightforward and engaging user experience.

Our interface is being designed to utilize the latest AI technology to accommodate both newcomers and experienced traders, providing essential tools, real-time analytics, and accessible support.

Embedded in this development phase, we are ensuring the platform adopts rigorous security measures, including advanced encryption and continuous monitoring, alongside adherence to global regulatory standards.

Quantum Swap AI is dedicated to maintaining a secure and compliant environment for all users.

Quantum Swap AI -Telegram Bot

The Quantum Swap AI Telegram bot offers Telegram users a powerful tool to swap cryptocurrencies across different blockchain networks seamlessly.

This bot aligns with our goal to make financial interactions across diverse blockchain networks more accessible and efficient, enhancing the inclusivity of the decentralized finance ecosystem.

By integrating this capability within Telegram, we're making it easier for users to engage with DeFi, broadening the reach and simplifying the user experience for a wide audience.

With the help of advanced AI technology, the Quantum Swap AI Telegram bot constantly tracks on-chain data and price movements to ensure users get the best value for their cross-chain swaps.

This commitment to innovation, security, and user satisfaction provides a secure, transparent, and smooth transaction process. Now, users have the convenience of executing trades across blockchains without leaving their favorite messaging app, promoting liquidity, connectivity, and growth in the cryptocurrency markets worldwide.

QUANTUM SWAP AI

Quantum Swap AI Roadmap

Phase One

- ✓ Successful launch of token \$QSWAP
- ✓ Coin Gecko and CoinMarketCap Listings
- ✓ Achieving 1000 holders
- ✓ Engage in community building through social media, influencers and call channels

Phase Two

- ✓ Release of Staking
- ✓ Beta testing of website
- ✓ Beta testing of Quantum Swap AI
- ✓ Company Registration
- ✓ Staff training
- ✓ Mid-tier exchange listings
- ✓ Develop partnerships

Phase Three

- ✓ Release of Quantum Swap AI
- ✓ Website and Telegram Bot Swap Release
- ✓ Share revenue
- Ongoing swap development
- ✓ Support team growth and training
